

# Zak Andr

MULTIDISCIPLINARY CREATIVE TECHNOLOGIST

@ andriianov@gmx.com  
W <https://logicandsound.com/>  
L <www.linkedin.com/in/zak-andr>

## SUMMARY

Multidisciplinary creative technologist working across software engineering, product design, web development, AI workflows, and media production. Creates practical digital products from concept and systems architecture through interface design, automation, deployment, and iteration.

## SKILLS

### TECHNICAL

Full-stack web development • JavaScript / TypeScript • React / Next.js • Node.js / API architecture • Three.js / WebGL • HTML5 / CSS3 • UI implementation • System architecture • Git-based development • Linux-based workflows • AI workflow design • Local / custom LLM workflows • Context engineering • Model output evaluation • Token optimization • Automation pipelines

### PROFESSIONAL

Complex systems thinking • Creative problem-solving • Strong visual taste • Digital product design • UX / interface thinking • Creative direction • Product strategy • Independent project ownership • Long-term project maintenance • Technical research • Quality control • Decision making • Adaptability & flexibility

## EXPERIENCE

### DIGITAL PROJECTS / SOFTWARE CONSULTING - WEB, 3D GRAFICS, PRODUCT-FACING SYSTEM

<https://adrhsths.github.io/zakandr/>

- Delivered client-facing web, creative coding, 3D/2D graphics, and interactive product projects for international companies.

### OWNER / CREATOR — LUNF.IO

<https://lunf.io/en>

- Created and developed a 3D furniture configuration platform combining WebGL/interactive graphics, product thinking, business-oriented UX, and deployment-ready web technology.
- Worked across product concept, interface logic, visual/3D presentation, customer workflow, and website integration.

### LONG-TERM MUSIC & MEDIA PROJECT - MITTNETWORKMUSIC

<https://logicandsound.com/mittnetworkmusic/>

- Serious long-running production project covering music production, sound design, visual identity, release presentation, and audio-visual direction.
- Managed creative assets, presentation systems, release logic, and production workflows over an 11 years.

### PROJECT LEAD / CREATOR — HYPERFOCUS

<https://hyperfocus.logicandsound.com>

- Independent writing platform combining editorial thinking, creative research, cultural analysis, personal knowledge systems, and digital publishing.

## SELECTED CLIENTS & COMPANIES

Volkswagen, Puzzlehome.pro, Numan.com, Steinmetz-Werl.at, AquaScan.com, Varsitybase.com, Hemero.us, Artiva-sports.com, Au Pont Rouge, DEF Furniture, Scentcraft.com, Tomodachi.town, Kolter, 3frog.com, 3up3downsports.com. Cubic.co.at, Airtasker.com

## APPROACH

From idea to working product • clear structure • fast prototyping • real-user logic • practical execution • continuous improvement

## TOOLS / STACK

### DEVELOPMENT

- React / Next.js
- JavaScript / TypeScript
- Node.js
- Three.js / WebGL
- HTML5 / CSS3
- Tailwind CSS
- REST APIs / JSON
- Git / GitHub
- Linux terminal
- Cloudflare
- WordPress / iframe embeds

### DESIGN

- Figma
- Framer
- Adobe Photoshop
- Adobe Illustrator
- Blender
- UI / UX design
- Design systems
- Wireframing
- Interactive prototypes
- Visual identity
- Product documentation

### AI WORKFLOWS

- Local LLM environments
- Custom AI workflows
- Structured prompting
- Context engineering
- Prompt optimization
- Token optimization
- Model output evaluation
- AI-assisted coding
- AI-assisted debugging
- Parallel AI workflows
- Workflow automation

### MUSIC / MEDIA

- Composition
- Sound design
- Arrangement
- Audio editing
- Release preparation
- Media packaging
- Visual identity for music projects
- Catalog organization
- Long-term creative production systems

INTERESTS | open-source • design systems • research and continuous learning
